Consolidated Corporate Governance Report

in accordance with Section 267b of the Austrian Commercial Code (UGB)

Corporate governance – framework

VERBUND AG is a listed stock corporation domiciled in Austria. Its corporate governance framework is derived from Austrian and European law, including, in particular, stock corporation and capital market law, the Austrian Commercial Code (Unternehmensgesetzbuch, UGB) and the regulations governing employee co-determination, the Company's Articles of Association, the rules of procedure for the Company's Boards and, finally, the Austrian Code of Corporate Governance (Österreichischer Corporate Governance Kodex, ÖCGK).

Declaration of commitment to the Austrian Code of Corporate Governance

Declaration of conformity

VERBUND has declared its unconditional commitment to the Austrian Code of Corporate Governance (ÖCGK). The Executive Board and Supervisory Board see it as their primary duty to comply with all of the rules of the Code as fully as possible and to maintain and continue to develop the Group's high internal standards. The Code was applied during financial year 2021 as amended in January 2021 and was adhered to in accordance with the explanatory notes in this report. Active implementation of the requirements of the Code is intended to ensure responsible management and control of the Group directed at sustainable, long-term value creation and to create a high level of transparency for all stakeholders. VERBUND will continue to actively adhere to the Code as amended during financial year 2022. Applying it as fully as possible is an essential building block for strengthening the trust placed in the Group by shareholders, business partners, employees and the general public.

The Austrian Code of Corporate Governance as amended is available from the website of the Austrian Working Group for Corporate Governance at www.corporate-governance.at

Evaluation

In accordance with C Rule 62 of the Austrian Code of Corporate Governance (ÖCGK), compliance with the Code and the accuracy of the related reporting is evaluated externally by an independent auditor at regular intervals. The last such evaluation was carried out for 2019 and resulted in a positive report. The next evaluation is planned for financial year 2022.

Scope of reporting

A consolidated corporate governance report is presented as required under statutory provisions. As a combined report, it also includes the report in accordance with Section 243c of the Austrian Commercial Code (UGB), and key items of this report are expanded beyond the listed parent company to include the entire Group. Opinion 22 of the Austrian Financial Reporting and Auditing Committee (AFRAC) has been followed with respect to the requirements on content.

This Consolidated Corporate Governance Report includes not only the disclosures required by law but also the additional content as intended by the Code of Corporate Governance. In addition, further information is provided on the relevant indicators under the Global Reporting Initiative (GRI), the global standard on sustainability reporting.

Detailed information on the composition and work procedures of the Executive Board, the Supervisory Board and the Supervisory Board's committees is provided in the sections entitled Executive Board and Supervisory Board.

This Corporate Governance Report no longer contains information on the remuneration of the Executive Board and the Supervisory Board. Please refer to the separate remuneration report which is to be submitted to the Annual General Meeting and is published on the website.

Further information on the bodies Executive Board, Supervisory Board and Annual General Meeting and on their interactions is available in the document entitled Disclosures on Management Approach (DMA) at www.verbund.com > Investor Relations > Financial reports.

Deviations

VERBUND complies with almost all the rules in the Austrian Code of Corporate Governance, including the R Rules. The deviations applied in financial year 2021 are the same as those applied in the previous year. From a total of 83 rules in the Code, there are slight deviations in the application of only two C Rules which are to some extent the result of legislative circumstances. In accordance with the “comply or explain” principle, these deviations are explained below:

C Rule 2:

The principle of “one share – one vote” is generally adhered to with respect to VERBUND shares. The sole exception is based on a restriction on voting rights embodied in the “federal constitutional act regulating the ownership structure of enterprises in the Austrian electricity industry” and in the provision of the Articles of Association based on this. The exception is worded as follows: “With the exception of regional authorities and companies in which regional authorities hold an interest of at least 51%, the voting rights of each shareholder at the Annual General Meeting are restricted to 5% of the share capital.”

C Rule 45:

The rule according to which Supervisory Board members may not assume any functions on the boards of other companies that are competitors of the Group was adhered to by all the members of the Supervisory Board, with two exceptions.

The two Supervisory Board members in question each carry out leading functions on boards in companies which are shareholders of VERBUND AG. If there is a conflict of interest with them in a specific case, then the chairperson will institute appropriate measures (e.g. withholding of certain documents or information, abstention from voting or departure from the meeting). This was required once for a single agenda item in the reporting period.

In addition, they lay down the Executive Board's duties to notify and report, and contain a list of measures that require approval by the Supervisory Board. The measures requiring approval also include material transactions proposed by the Group's main subsidiaries. Effective 1 January 2021, minor additions were made to the rules of procedure in regard to the representation of the chairperson of the Executive Board in the event that he or she is unable to attend.

The allocation of responsibilities within the Executive Board is part of the rules of procedure and defines the range of duties of the Executive Board members without prejudice to the overall responsibility of the Executive Board.

Of the Supervisory Board members, 21% are between the ages of 30 and 50 and 79% are over 50.

Independence

Back in 2010, the Supervisory Board of VERBUND AG defined the following criteria for its independence (pursuant to C Rule 53 of the Austrian Code of Corporate Governance (ÖCGK)):

- The Supervisory Board member shall not have served as a member of the Executive Board or as a member of the senior management staff of the Company or one of its subsidiaries in the past five years.
- The Supervisory Board member shall not maintain or have maintained in the past year any business relationships with the Company or one of its subsidiaries to an extent that would be significant to the member of the Supervisory Board. This shall also apply to relationships with companies in which the member of the Supervisory Board has a material economic interest, but not to exercising functions on the boards of the Group. The approval of individual transactions by the Supervisory Board pursuant to L Rule 48 shall not automatically mean that the person is deemed not to be independent.
- The Supervisory Board member shall not have acted as auditor of the Company or have owned a share in the audit firm or have worked there as an employee in the past three years.
- The Supervisory Board member shall not be a member of the managing board of another company in which a member of the Executive Board of the Company is a supervisory board member.
- The Supervisory Board member may not remain on the Supervisory Board for more than 15 years. This shall not apply to Supervisory Board members who are shareholders with a direct equity interest in the Company or who represent the interests of such a shareholder.
- The Supervisory Board member shall not be a close relative (direct descendant, spouse, life partner, parent, uncle, aunt, sibling, niece or nephew) of a member of the Executive Board or of persons who hold one of the aforementioned positions.

Based on these guidelines for independence (Annex to the Austrian Code of Corporate Governance), all nine shareholder representatives have issued a written statement on their independence. Seven of them have declared their independence, and two members of the Supervisory Board have classified themselves as not being independent (with respect to only the “relationships with related parties” criterion).

In addition, the following shareholder representatives in the Supervisory Board meet the criteria for independence contained in C Rule 54 (not representing the interests of a shareholder with a stake exceeding 10%): Ohneberg, Hennersdorf, Praetorius, Roth, Rümmler and Schlager. Both quotas required for independence by Rule 53 and Rule 54 of the Code are thus met.

Meetings of the Supervisory Board

Seven plenary meetings of the Supervisory Board were held during financial year 2021. Due to preventive measures in place in response to the COVID-19 pandemic, only the Chairman and individual members of the Supervisory Board were physically in attendance at the meetings, while the majority of the Supervisory Board members participated remotely by telephone or video. The overall attendance rate for all Supervisory Board members (including remote attendees) was 98%. No member of the Supervisory Board attended fewer than half of the meetings in person (including virtual attendance).

In addition to coordinating the ongoing strategic direction of the Company with the Executive Board, the Supervisory Board focused on decisions relating to the following topics in particular during the reporting period:

- consolidated financial statements and annual financial statements of VERBUND AG for 2020;

- proposals for resolutions for the Annual General Meeting;
- proposal for profit appropriation in accordance with Section 96(1) of the Austrian Stock Corporation Act (AktG);
- election of the General Committee of the Supervisory Board and constitution of the committees;
- appointment of the auditor;
- appointment of managing directors in subsidiaries;
- Limberg III pumped storage power plant project;
- Gratkorn power plant project on the Mur River – increase in total project cost;
- wind and solar power projects
- acquisition of a stake in SMATRICS (EMPA) and sale of 25.1% to EnBW;
- H2 Töging hydrogen project – investment approval;
- approval of agreements with entities that are related parties of Supervisory Board members; and
- approval of the Group budget for 2022.

(Please also refer to the activities focused upon by the Supervisory Board’s committees.)

Each year during the audit of the financial statements, the auditor provides the Supervisory Board with a separate report on the reliability of the risk management system. The report from the auditor also details sustainability risks in the same manner as in the written quarterly reports on operating risk management that the Supervisory Board discusses at each of its meetings.

In addition to the meetings of the Supervisory Board and its committees (see below), there were regular discussions and teleconferences between the Chairman of the Supervisory Board and the Chairman of the Executive Board, and several discussions were held with individual members of the Executive Board.

Evaluation of Supervisory Board activity

The performance of the Supervisory Board is evaluated annually during the Annual General Meeting, at which the shareholders vote to approve the actions of the Supervisory Board. At the 74th Annual General Meeting on 20 April 2021, the actions of all Supervisory Board members were formally approved.

In light of the highly detailed self-evaluation carried out with the help of external moderators in late 2020, which included interviews with all members of the Supervisory Board and the Executive Board and an in-depth discussion of the results, a formal evaluation was not carried out in the year under review following the Chairman’s departure. However, the Supervisory Board meetings included an ongoing discussion on how to improve the board’s activities. Another structured self-evaluation is planned for next year.

GRI 102-28

Composition and work procedures of the committees

In accordance with the provisions of the rules of procedure for the Supervisory Board (as amended on 16 June 2020), the Supervisory Board shall, following the Annual General Meeting, annually elect the members of an Audit Committee, a Strategy Committee, an Emergencies Committee, a Remuneration Committee, a Nomination Committee and a Sustainability Committee. In addition, it can form temporary or permanent committees specifically for certain projects and topics.

Each chairperson of a committee is required to report to the Supervisory Board on the work of the committee he or she chairs and on its decisions. In urgent cases, the chairperson of a committee is required to report in advance to the Chairman of the Supervisory Board.

Audit Committee

The Audit Committee was established pursuant to Section 92(4a) of the Austrian Stock Corporation Act (AktG) and, in accordance with the rules of procedure for the Supervisory Board, consists of four Supervisory Board members elected by the shareholders and two employee representatives in accordance with Section 92(4) AktG. The chairperson and vice-chairperson of the committee are elected from among its members.

The Audit Committee performs the tasks under Section 92(4a) AktG and Rule 40 of the Austrian Code of Corporate Governance (ÖCGK). It has the financial expert required by law and by the Code at its disposal, who is also the chairperson of the committee.

Contracts requiring consent – conflicts of interest

In financial year 2021, the following contracts and/or transactions approved by the Supervisory Board of VERBUND AG in accordance with the Austrian Stock Corporation Act (AktG) and the Austrian Code of Corporate Governance (Rule 49) existed between the VERBUND Group and individual Supervisory Board members or companies with which Supervisory Board members have close relationships:

GRI 102-25

Supervisory Board member Mag. Stefan Szyszkowitz

A number of contractual relationships, some of which have been in place for many years, exist between VERBUND and the EVN Group, of which Mag. Stefan Szyszkowitz is spokesman of the managing board. Most of these relationships had already been entered into before Mag. Szyszkowitz became a member of the Supervisory Board. The business transacted under these contracts and their volume are reported to the Supervisory Board on an annual basis. In financial year 2021, an order volume totalling €582k was processed on the basis of the existing contracts (excluding transactions with grid subsidiary APG). These primarily involved electricity and grid purchases for various VERBUND companies. In addition, there are agreements concerning VERBUND Innkraftwerke GmbH and contractual relationships for the supply of electricity with ENERGIEALLIANZ Austria GmbH, in which EVN holds a 45% interest.

Supervisory Board member Dipl.-Ing. Peter Weinelt

A number of contractual relationships, some of many years standing, exist between VERBUND and the Wiener Stadtwerke Group, of which Dipl.-Ing. Peter Weinelt is managing director. Most of these had already been entered into before Dipl.-Ing. Peter Weinelt became a member of the Supervisory Board. The business transacted under these contracts and their volume are reported to the Supervisory Board on an annual basis. In financial year 2021, an order volume totalling €818k was processed on the basis of

the existing contracts (excluding transactions with grid subsidiary APG). These primarily involved grid purchases for VERBUND companies. Two individual transactions (< €210k) were completed under the EFET general electricity trading agreement between VERBUND Energy4Business GmbH and Wien Energie. In addition, there are agreements concerning VERBUND Innkraftwerke GmbH and contractual relationships for the supply of electricity with ENERGIEALLIANZ Austria GmbH, in which Wiener Stadtwerke holds a 45% interest. During the reporting period, the Supervisory Board approved a cooperation agreement granting VERBUND Thermal Power GmbH the right to participate in hydrogen testing at a gas turbine of Wien Energie for a fee of €1m to cover costs.

In financial year 2021, the Supervisory Board again looked at possible (other) conflicts of interest involving Supervisory Board members that could arise in particular as a result of activities or equity interests in the energy sector or in companies competing with the VERBUND Group or individual projects. Supervisory Board members reported no conflicts of interest on their parts. According to the assessment of the Supervisory Board, there are no fundamental conflicts of interest that would require further measures. Should such conflicts arise, suitable measures, such as abstention from voting or from providing advice and voting on individual agenda items, will have to be implemented promptly.

An expert opinion obtained after the 2018 report from the Austrian Court of Audit confirms that the Group has taken adequate and suitable measures to manage potential conflicts of interest in the Supervisory Board in an appropriate manner.

Diversity concept for appointments to the Executive Board and Supervisory Board

SDG 5

Studies indicate that mixed teams achieve better results and are more effective and innovative than homogeneous groups. This is also true for a company's boards. When members of the Executive Board and the Supervisory Board are being appointed, in order to get maximum benefit from different

perspectives for entrepreneurial decisions the following principles shall therefore be applied in addition to the general and company-specific requirements for specialised and personal qualifications:

Supervisory Board

The relevant aspects of a diverse composition of the Supervisory Board include the age of its members and the duration of their membership in the Supervisory Board, balanced representation of men and women, internationality and a balance in the education and career backgrounds of its members.

Age: The aim is to achieve a balanced age structure among members in which the difference between the oldest and the youngest member shall be approximately ten years in order to allow input from the different views of the generations. No Supervisory Board member may remain on the Supervisory Board for more than 15 years. Both criteria were fulfilled in the reporting period.

Gender representation: Since the election of the new Supervisory Board at the Annual General Meeting on 16 June 2020, seven women are members of the Supervisory Board of VERBUND AG (four shareholder representatives and three employee representatives). This share of 50% (overall) not only complies with the statutory quota requiring 30% of the less-represented gender on the supervisory board (women, in the case of VERBUND), it also complies with the federal government's decision from 2011 according to which women will make up at least 35% of the shareholder representatives on supervisory boards of state-owned companies.

Internationality: The Supervisory Board shall have an appropriate number of members (at least three) who spent a significant part of their professional career abroad or have many years of experience in international business. This requirement was met in the reporting period, particularly with the election of three members from Germany reinforcing the internationality.

Educational and career background: The goal is a Supervisory Board made up of members with the widest possible range of educational backgrounds and experiences from different professional careers. On the Supervisory Board, at least one member of the Supervisory Board shall contribute proven skills and expertise in each of the following areas:

- law, capital markets, industry expertise, specialist technical knowledge, finance expertise, expertise in the area of sales, digitalisation and innovation, experience with regulated companies, financial experience and experience in strategic projects (e.g. M&A), experience in the areas of sustainability, environment and stakeholder management.

These diversity criteria were amply taken into account in the election of the new Supervisory Board at the Annual General Meeting on 16 June 2020, particularly the aspects of gender, internationality and specialist expertise.

Executive Board

The relevant aspects of a diverse composition of the Executive Board include a balance in the educational and career backgrounds, internationality and the duration of its unchanged composition.

Educational and career background: In addition to extensive managerial experience and comprehensive industry knowledge, members of the Executive Board shall have a sound education and relevant professional experience in either the technical or the commercial/administrative area.

Gender representation: The aim for the medium term is to have one female member on the Executive Board.

Internationality: Some members of the Executive Board shall have spent a significant part of their professional career abroad or have many years of experience in international business.

Duration of the composition: The composition and division of responsibilities of the Executive Board shall not remain unchanged for more than ten years.

The Supervisory Board took these aspects into account in appointing the members of the Executive Board in 2018.

Measures for the advancement of women

(Section 243c(2)(2) of the Austrian Commercial Code, UGB)

In accordance with its commitment to sustainable management, VERBUND addresses issues of social relevance such as equal opportunity in the workplace. VERBUND treats all its employees equally, regardless of their gender, age, religious beliefs, disability, culture, skin colour, social origins, sexual orientation or nationality. Decisive action is taken against any form of discrimination or harassment.

Since the selection of Supervisory Board members is solely the responsibility of the Annual General Meeting and depends on delegates being appointed as employee representatives, the Executive Board has no influence on whether there are any women on the Supervisory Board of VERBUND AG. With Christine Catasta, Susan Hennesdorf, Barbara Praetorius and Christa Schlager as well as the employee representatives Doris Dangl, Isabella Hönlinger and Veronika Neugeboren, the Supervisory Board of VERBUND AG has seven women members, which equates to a female membership of 50%.

As at 31 December 2021, 15 women held management positions within the Group (first and second levels of management). The percentage of women in management positions is therefore 13.5%. The percentage of women among employees throughout the Group is 19.3%. One female executive has worked part time since 2012.

In order to ensure that the Company diversity management system is permanently integrated into and further developed within the Group, all equal opportunity agendas will be fully executed by the Diversity & Inclusion manager.

VERBUND promotes women through a variety of measures, listed here as examples:

- Under the VERBUND diversity strategy, particular emphasis is placed on the dimension of gender, for which targets and measures are defined and implemented.
- The Executive Board emphasises non-discrimination within the Group. Numerous measures were developed in 2021 as part of the Gender Balance project and have already been implemented.
- A Gender Balance Network was founded in order to define the parameters, internal structures and responsibilities (including the local points of contact) to allow for and nurture a debate on the topic of gender equity as a facet of a modern and supportive corporate culture.
- Since 2017, executives from the top level of management have also been measured against targets set to promote the equal treatment of women.
